

The next generation of Motorola professional two-way radio communications solutions.

ETSI DMR Standard-compliant digital technology provides new, unique benefits to increase workforce productivity and safety. MOTOTRBO is ideal for professional organizations that need a customizable, business-critical communication solution using licensed spectrum.

The MOTOTRBO Professional Digital Two-Way Radio System, consisting of Portable and Mobile radios and Accessories, Repeaters and value-add Applications, delivers the following benefits:

- √ Digital Time Division Multiple Access (TDMA) technology doubles the system call capacity - two virtual channels are supported in one RF channel. This provides customers with double capacity with same infrastructure or licence costs
- √ Provides clearer voice communications over a wider range compared to legacy analogue systems
- √ Longer battery life helps ensure more reliable and cost-effective communications for mobile workforces
- √ Integrated data capability (including built-in data modem in every radio, text messaging and IP packet data support) enables a wide portfolio value-added data solutions through the highly successful Motorola Application Partner Programme
- √ MOTOTRBO radios can operate in digital or analogue mode to ensure compatibility with legacy radio systems. This provides our customers with a smooth and cost-effective migration path.
- √ A wide portfolio of intelligent accessories enhances the value of the radio - adding new capabilities and making the radio more convenient to use in different working conditions

DP 3400 Non-Display Portable Radio

Networks & Enterprise. Europe, Middle East and Africa

Euro (€) Reseller Price List

 Revision Date Of Text: Friday, March 16, 2007
 Pricing Information Valid As Of: Monday, January 15, 2007

MOTOTRBO the next generation of Motorola professional two-way radio communications solutions.

DP 3400 Features

- 32 channels
- Large, textured push-to-talk button for ease of use
- IP57 environmental sealing helps ensure continued operation in tough working conditions
- 3 programmable buttons to improve ease-of-use and increase operator efficiency
- Tri-color LED for clear visual feedback on radio operating status
- Emergency button to help ensure rapid response to critical incidents
- Quick, easy-to-use Group, Individual and All-call capability
- Sophisticated Emergency Calls help ensure employee safety
- PTT ID helps improve communications efficiency and system discipline
- Remote Monitor features help ensure employee safety and enable fast assessment of remote user status
- Elegant channel scanning schemes help ensure calls are received first time every time
- New accessory connector with RF port and USB interface for advanced connectivity

DP 3400 Standard Package

- NiMH 1300mAh battery
- impres™ Single-Unit Charger
- Whip antenna
- 2.5" belt clip
- Quick reference guide
